

# Get The Most Out of PEG Writing Features

The useful and intuitive features available in PEG Writing make it an indispensable teaching partner for the classroom. Read on to learn more about how PEG Writing can engage students and help guide instructional design.

## Enhanced Collaboration

- Promote students' cognitive and metacognitive skills through peer review.
- Provide feedback to students through electronic sticky notes and instant messaging.
- Interact with multiple teachers within the same course to provide subject-specific feedback and support cross-curricular instruction.

## Scoring & Student Feedback

- Rely on instant, tailored feedback and lesson suggestions to guide improvement.
- Add scores for textual evidence and content accuracy.
- Track class and student improvement with four types of reports: Performance, Prompt, Progress, and Usage.
- Use recommended external citation and plagiarism-checking resources via the PEG Writing Support site.
- View detailed reporting, including national percentile rank and stanine for each draft.
- Export reports to facilitate custom data analysis.

## Writing Prompts

- Access grade-specific writing prompts for Narrative, Informative/Explanatory, and Argumentative writing.
- Create and share custom writing prompts specific to course content.
- Add stimulus material (passages, websites, videos, etc.) to any custom prompt.
- Recommend specific prompts to individual students to differentiate instruction.
- Create word banks of prompt-specific words that should not be marked as spelling errors.

## Interactive Lessons & Prewriting

- Engage students with animated tutorials, read-aloud options, and graphic organizers.
- View lessons by writing trait category and skill level.
- Encourage students to use recommended graphic organizers, now organized by grade level and essay genre.
